I talked with both Bob and Jimmie on Sunday evening, they wanted to express their sincere appreciation for all of your help and the show of support at this Good Ol' Boys Roundup, they said they would see ya'll at next year's event.

Rest assured, next year's meeting will be bigger and better.

On another note, Lynn Grummel from the Indiana militia won first place in the handgun competition, the prize money was awarded to him by our firing line officer, Van Lipscomb, during the speaker's session of the meeting. Mr. Grummel immediately donated this prize money to the Bob and Jimmie's fund.

KEVIN & DANNY BARKER

Dear Jeff and the other Gadsden Minutemen:

I would like to thank you for the hospitality shown myself, William Beeler, and Mike Kuriatnyk during our visit to the 2d Annual Good 'ol Boys Rally the 17th, 18th, and 19th.

Bill got a good videocassette copy of the speeches made by JJ Johnson, Nancy Lord, Mike Kemp and Mike Kuriatnyk.

I am making copies of it for propaganda purposes, and to show the rest who did not come what they missed. I think it would be OK to ask those who want a copy for a donation to help the Macon Innocents Legal Defense to keep them from being McVeighed by a government desperate to keep the knowledge that government ATF informants wanted to blow up the Olympics and blame it on the militias like they did in Oklahoma City.

I got to see all those good, intelligent Patriots who I had previously only known via e-mail. It is good to assign a determined face and voice to such people.

I'm glad that I was able to come and visit such decent people for a while. Maybe that is what heaven is like.

I'll be back next year if I can. Thanks.

Folks,

ATF is at it again...

This Tuesday night at about 9:30 pm in St. Charles county, Missouri, a group of 14 county/fed goons led by an ATF twit raided a suburban household of 4; two mid-thirties parents, and 6 and 2 year old children. They kicked in the back door, threatened to kill the dog, tied up the husband on the floor with a gun at his head and generally trashed the house searching for weapons. They did not even produce a warrant for over an hour. The couple thought they had been invaded by burglars, and expected to die. The screams of "ATF!" by the goons did not mean anything to the couple.

After an hour & a half, not finding what they were looking for they just left, no apologies, nothing.

It appears that an ATF informant was making the whole thing up. He told the ATF that he had been to this house many times, and that a large stash of machine guns were there as part of a large gun running operation. The local police, upon checking the county records told the informant that the owners name did not match the name of the so-called "gun-runner" he was informing on. His response was that the guy must be a guest of the homeowners.

On this basis a judge authorized the search warrant. Well, so much for the necessity of a sworn statement by a trustworthy individual.

The ATF "official" has indicated that he will apologize at some point.

A few (to me) frustrating points;

1. The local cops took the trouble to (partially) check up on what the informant was telling them, and when conflicting data was obtained, decided to trust the informant over records showing a typical law abiding family. When will local judges start to give their local residents the benefit of the doubt over paid informants?
2. As usual, rather than knocking on the front door in the daytime, serving the warrant, and peacefully checking out the residence, they kicked in the door, and threatened the family. Equally as usual they apparently found an extremist, right wing, terrorist dog and wanted to kill it.
3. Rather than admit the screw up on the spot, the ATF MAY be pressured into an apology.

Oh well, just another day in paradise.

THE INVOLVEMENT OF THE FEDERAL GOVERNMENT IN DOMESTIC TERRORISM Editorial

Question: is there any domestic terrorist attack in which the federal government was not involved? The answer is that we don't know, because the Oklahoma bombing has yet to go to trial. But in all other terrorist attacks we find government involvement.

In the most recent example, the alleged bomb making by Georgia Militia members, the government involvement became clear in a Macon, Georgia courtroom last Monday. Several federal informants had participated in the plans to make pipe bombs, and the attorney to the defendant Robert Starr claimed that Starr was the only conspirator not working for the government. In fact, his attorney claims that bomb making parts were buried on his property by federal agents without his knowledge. Two days before his arrest, Starr appeared on a talk radio show saying that there was a government conspiracy against him and that he was going to expose it.

A BATF agent also admitted in court that Starr's co-defendant, William James "Jimmy" McCranie, had said, "I don't want to know anything about it" and walked away when the government informant was talking about building bombs.

Strangely, CBS news reported on the day of Starr's arrest that it had been a plot to bomb the Olympic Games in Atlanta this summer. Who told them that and why did they believe it? Who is CBS news working for? The uncritical attitude with which the mainstream media repeats everything the government tells it is distasteful.

As for previous terrorist attacks, we know that at the very least, World Trade Center bombers were trained by a federal agent, and we know that a government informant inspired the New York harbor tunnel attacks that were averted at the last moment.

The residents of Oklahoma City were not that fortunate. Was it a government sting operation gone awry? The federal government shows surprising little interest in the John Doe #2 who was seen in the truck with McVeigh. Was he working for the federal government? If that were the case the government would be likely to cover up that fact rather than face the ensuing public outrage.

The question that presents itself, then, is whether any of these terrorist plots would have materialized without the involvement and assistance of the federal government? The new antiterrorism bill is designed to allow the Clinton administration to better control and monitor the American people. Perhaps what we need more is a bill to keep a better check on what the government is doing. We obviously cannot depend on the mainstream media for that.

Press Release
Gadsden Minutemen

May 22, 1996

To all militia personnel:

It has come to our attention that the lives of Kevin and Danny Barker may have been threatened. As you all know, the Barker brothers were the paid ATF confidential informants (CI # 62 and CI # 63) in the Starr/McCranie case.

We ask, if you hear of anyone threatening these people please call Jeff Randall immediately at (205) 570 0638. I will immediately turn this information over to the proper authorities. We do not need these people harmed in any fashion, their testimony is crucial to the case and also crucial in exposing ATF "Operation Piedmont." Piedmont is an operation run by the Bureau of Alcohol, Tobacco and Firearms to implicate and coerce militiamen into manufacturing or experimenting with explosives.

FBI agent William Stewart (Atlanta) has been notified and provided with documentation on this operation. Mr Stewart is also the agent who informed Bob Starr of a possible death threat on his life, this occurred two days before Starr was arrested.

There is more government documentation on the Barker brothers and Operation Piedmont, however, the investigators for the defense cannot release it at this time. Also, there are a couple of agents who are working with us in exposing this illegal exercise, their confidentiality cannot be compromised. We are asking that everyone suspend communications with federal law enforcement until this case is over with and all documentation is made public. If an agent contacts you, DO NOT TALK to him without a subpoena, and immediately contact me or someone else on the defense investigation. We can tell you that there are a couple of people inside the ATF and FBI that are providing good information to us, some of you may know these people, so please suspend communications with anyone in federal law enforcement until this case is resolved.

Recent, high quality surveillance photos of Kevin and Danny will be distributed shortly. These photos are being distributed for the purposes of information gathering only, so please distribute when you receive them, AGAIN, anyone who hears of any threats on these people, please contact me immediately. We must keep these people safe, it is very important to the case in Macon.

On another subject, ATTENTION ALABAMA, I was called two days ago, by a "militiamen," stating that a group in Alabama was making pipe bombs. I cannot validate this information, however, we urge everyone to steer clear of anyone talking about explosives. Operation Piedmont is not only localized in Georgia, but other states also. If you hear, talk of or see anyone dealing with any illegal equipment, DO NOT try to run your own intelligence operation, DO NOT try to apprehend these people, if you ask why, then ask Bob Starr for the reasons.

Thanks,

Jeff Randall

On Thursday, May 9, Richard Hayward was arrested. He was charged with "contributing to a child in need of supervision." This occurred because Rich's son Justin had whistled in class and had been suspended from school for a day. For the school year, this made a total of three days of suspension for Justin, and "the authorities" violated their own rules to declare Justin truant, and Richard therefore "criminal."

Pursuant to this declaration of truancy, Mr. Hayward is alleged to have been required to appear in court for a lecture by a judge, wherein he would officially have no rights and no voice. This is part of the federally funded "Early Warning Program," intended to spot attendance (truancy) problems early on and address them before they harden into habit. That sounds like a noble cause, but the problem is that there was no truancy. And there was no documentation for Mr. Hayward's being served with notice of a required court appearance. And the arrest was not for failure to appear.

So the federal program coordinator for the school district swore out a warrant for Richard's arrest. In it he alleged that Mr. Hayward's son had been suspended three days for fighting, which was a lie; he alleged that Mr. Hayward had ignored a notice to appear in court, which was a lie; and he violated the school policy which implies that the parent who registers a child in school is the "parent of record," and Mrs. Hayward registered the child in school and she was nowhere mentioned. Since this incident was the second time that the school district officials had attempted to harass Richard in this way, he returned the favor.

For the lies on his affidavit for the arrest warrant, Mr. Crim (the fed of record) was charged with perjury and a warrant was issued for his arrest. Mr. Hayward first went to the St. Clair County Alabama court house, and was given the run-around by the clerical employees. They would not accept his complaint, and required him to see the District Attorney, whose office is twenty miles away.

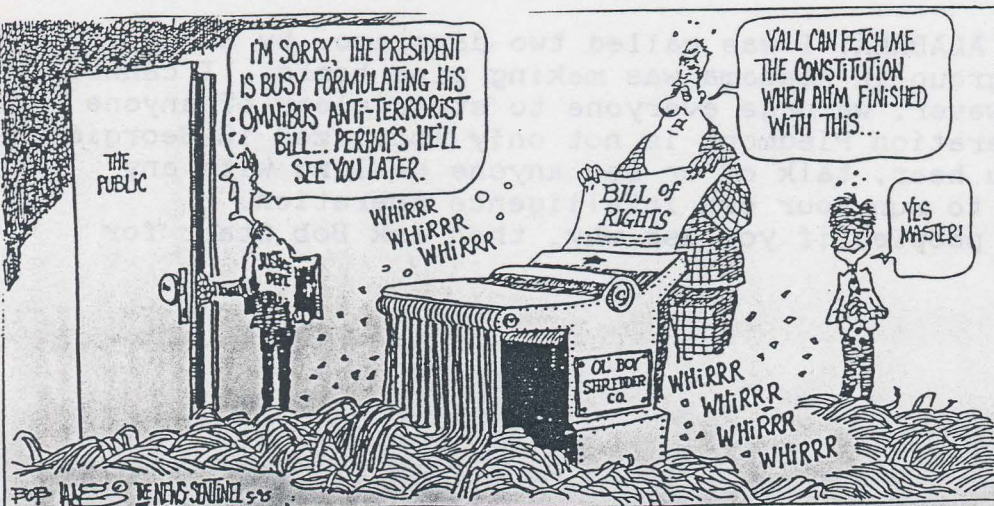

Recognizing the ambush, Mr. Hayward called Mike Kemp of the Gadsden Minute Men and asked him to bring his heavy weapons and come help cut through the bovine excrement. Mr. Kemp arrived with his video camera and he and Mr. Hayward proceeded to the District Attorney's office.

Steadily eyeballing the video camera, which had the lens cap on and was carried casually under Mr. Kemp's arm, the District Attorney was very helpful and disclaimed any responsibility for the issuance or non issuance of warrants. At one point, he agreed with Mr. Kemp that it was insane to suspend a child for reasons of discipline and then declare him truant for the suspension.

Mr. Hayward and Mr. Kemp proceeded back to the St. Clair County court house in Ashville from the St. Clair County court house in Pell City (don't even ask) and entered the clerk of court's office again, having been refused a warrant earlier that morning. Mr. Kemp's camera was present, lens cap in place and under his arm. The lady clerks were helpful as they could be, pointedly inquiring about the camera. They were truthfully told that Mr. Kemp was not filming.

As quickly as printers could print, the warrant was produced and signed, with promise of execution. Mr. Hayward was jailed, accused on a trumped-up charge which is a "violation," which is not even a misdemeanor, because Mr. Hayward previously had the audacity to sue the school board for not allowing his son to wear a t-shirt with a confederate battle flag; the lying fed was arrested for a class C felony. And, by the way, Mr. Kemp was rolling audio tape throughout the meeting with the DA, and while in the clerk of court's office in Ashville. He wasn't filming.

5/21/96 Rich Hayward's court date was today; he and the typical Minuteman crew arrived at the St. Clair county court house only to find that the judge had taken a powder, and all cases were continued until mid-June. Before we left, "the authorities" were caught on tape, admitting: firstly, that all the involved attorneys had been notified that court would not be held that day, yet none of the Americans who were required to miss work and disrupt their lives to be at the court on time were notified. Secondly, it was stated that the only notice that would be given for those required to return to the court was given in the courtroom that morning. I must wonder: what does "due process" mean?

Subj: Statement on JJ and Starr case

 From: CopWatch
 BCC:CGrib70171

GMM Statement....Please distribute
 May 25

In response to all of this internet and email traffic concerning JJ Johnson, I offer the following:

JJ wrote in his fax, that a meeting was called in Knob Creek at the request of Lucky Kountz and Jeff Randall. I can only speak for myself, and I know that I did not "request" any meeting. JJ came to me after the main meeting and said, "Best Western motel tonight at 8:00 pm," I said okay, what's going go. He said that he was organizing a meeting to have some resolve on the Freeman issue. I cannot speak for Lucky, however, I know that I did not request this meeting, even though I was happy to attend and be a part of this.

My stand on the Declaration is the same now, as it was when it was signed. Many people put their heart and soul into that document, including myself and Mike Kemp from Alabama. Our signatures will stay on, regardless of any intimidation, possible criminal charges or threats on our lives. We, the Gadsden Minutemen, stand behind our word completely, with no intentions of backing off. This principle has been the reason we have been able to expose and proactively incapacitate many rogue law enforcement officers.

This Declaration was not about declaring war on anyone, nor was it a threat. We may or may not support some of the Freeman's beliefs, but one thing we know for sure, the court system today is corrupt. I personally do not feel the Freeman will get a true Constitutional trial if they surrender, this is due to many things, including the liberal press. This is not to say that we support the Freeman, but until the government and mainstream press will address the issues that the Freeman have brought to the forefront, how can we expect the Freeman to get a fair trial should they surrender?

Now on to other issues. I, along with Mike Perrin and Rich Hayward, have spent the last two days in Macon, Georgia, interviewing witnesses, talking to the press, spending time with the defendants families and others involved in the Starr case. Thanks to the good people in this movement, we were able to deliver enough money to both families to support them for the next few weeks. This case will be won by the defense, and the criminals inside ATF will be exposed. I am positive of that. However, we cannot let up on this case, we cannot be chasing down every conspiracy lead that the government may plant to occupy our time. We must concentrate on the first hand witnesses involved, educate the public in the area, and work with the local press. I assure everyone, if we attempt to tie this case with another case, full of rumor and conspiracy thoughts, we will lose our credibilty with the local jury pool. We do not have to chase ghost stories to nail these criminal ATF agents involved in the Starr case. We already have more than enough evidence to prove that Bob and Jimmy are innocent...let's not be made fools of by wild rumor.

Nancy Lord is a great attorney, she will do a fine job should an indictment be handed down and a trial take place. She has dedicated allot of personal time and money for this cause, so lets make sure she stays on this case and conitune to offer our support to her throughout this ordeal.

MORE-OVER

6

JJ has dedicated all of his personal self to this case also, he has also done a good job dealing with the issues in the Starr case. I do not agree with JJ's decision to remove his name publicly from the Declaration, many patriots who are firmly behind the Starr defense will view this as "crawfishing," and will wonder if he will back out on Starr should a situation arise. These questions are already being asked by many people. This is the last thing this case needed at this point. I view it as a very poor decision, as many in the movement have already expressed. His "explanantion" told all about who he trusted the most, and this bothers me.

Bottom line is this, I fully intend to continue to work with Nancy Lord on this case. I know in my heart that Bob is innocent, and I will not let my difference in opinions with one man keep me from helping Bob Starr. I can only ask that we all reserve our "email bashing," until after this case is finished. This is not about JJ Johnson, Nancy Lord Jeff Randall or anyone else involved in this case, it's about those innocent men locked away in jail, and their families. I beg all of you to continue to put these men above your own hard feelings. If you wish to jump JJ's ass, please do it directly and not publicly. Don't get me wrong, there are many things I would like to say, but after visiting with Bob's wife and 3 year old daughter today, I refuse to do anything that would possibly place more hurt on this family. I, too, feel JJ is wrong, but if Nancy Lord wishes to keep him on the defense team, then I will work around my differences until this case is finished. If, on the otherhand, Nancy Lord wishes for me to leave the defense team, I will do so, and not do anything to hurt the Starr case or family. In my opinion, JJ should go home to Ohio and spend some time with a true patriot, his wife Helen, but I cannot make personal decisions for another man. All other comments concerning Mr. Johnson will be held back until the Starr case is put to bed, at that time I will speak my mind, and those of you who know me, can attest that I don't pull any punches, until then I ask that everyone understand I am restraining my thoughts, and maybe even sacrificing some of my principles, because of the good people locked away in Macon, Georgia. I put these people and their lives above my own feelings at this point.

To JJ, I ask that you please understand that this movement is not about any one person, it will survive without you, and it will survive without me and any other singular person. It will not survive if we allow our egos to grow larger than our deeds.

I ask that everyone receiving this statement, please continue to pray for Bob and Jimmy, and also place your animosity towards anyone aside, for the time being. Bob, Jimmy and the families need your support, and I can truly say that Nancy Lord is honestly concerned and doing everything within her power to bring out the truth. If you are mad at someone wait until we reunite these families before you express too much anger. I will continue to work on this case in some capacity...my heart is already too far into it, and will do my best to look out for Bob, Jimmy and the families.

Thanks to everyone who is part of helping, no matter how small it is.

Jeff Randall
Gadsden Minutemen

PS: I will be bringing everyone up to date on the most recent developements in the Starr investigation, as soon as I can catch up on other busuiness. Evidence continues to mount against the Barker brothers and ATF.

Hello on the Wire:

Hope all that were in Alabama this past weekend made it home in fine shape. Hated to leave the peaceful surroundings and gracious hospitality.

Hopefully the following will indicate the sincerity of appreciation of the week end activities with the following:

A "Hillbilly" Rendition

OF

"The Good O Boys Roundup"
Gallant, Alabama

Words cannot describe the serenity, mingled with the aroma of pine and the echo of a whip-poor-will serenading three tired travelers to sleep in the wee hours! Precognition of the next three days would hardly let the thought process unwind and no one, unless they had the privilege of attendance could describe the epidemy of hospitality furnished by the Gadsden Minute Men.

"Roots" are the personification of characterization and "Grandpa and Grandma Randall" provided the neucleus of Americanism to their offspring, permeating the valleys and hills of Alabama. The industriousness, mingled with stewardship was visible in every aspect of the three generations of the "Randall Families".

The planning, the correlation of this event was a work of art that would be envious of any governmental or corporate strategist. The events emerged methodically, interwoven with meticulous timing; Security, safety, personal comfort, education, motivation, training, musical and vocal entertainment, providing the many participants, young (three cornered pants) to my age, three days of association, (as J.J. would say) that would "go down in the annals of Alabama History"!

A special note of appreciation to the "Security Personnel" that were unseen during the nighttime hours, while guests were able to enjoy the evening association around the many campfires and the restful slumber that only comes from knowing that nothing would disturb their activity.

Alabama hospitality was enchanced so graciously by the Refreshment Contingency "The Randall Women", with providing an endless supply of soft drinks with an abundance of ice and a dinner that only taste the best in the outdoor surroundings. It is my contention that if it wasn't for the "Kitchen Militia" that this country would

7
have ceased to exist long ago. Women provide the incentive, the glue that ties the family unit together, providing the barrier against all invasion, whether active, pro-active or be it problematical. The Universal Creator damn well knew that man alone would never make it by himself!! This could be readily seen in the Saintly Twinkle of Grand-ma-me Randalls' eyes! Everyone should make available (time) to the Grandsons and Granddaughters, the exquisiteness, of interpersonal relationship, knowledge, humor, and most of all the boundless love and commitment that no one else other that Grandparents can provide! It will give the future generations the necessary ingrediaents to survive.

A special thank you to "Mike Kemp" the Master of Ceremonies for the presentation of the events. His insights to the now "Famous Cop-Watch Program" that is creating terror to the Terrorists. Hopefully everyone when returning to their respective communities will implement this program that has become so effective in combating malicious entry, prosecution, and unwarrantless confiscation. The assimilation of information and assiduously applied can readily create disenfranchisement within the infrastructure of Governmental Organized Terrorism! A word of caution, this program is not for the timid, as had the privilege of witnessing the implementaion on a Chief of Police in the little town of Sulphur Springs. The Officer had a complete come apart and screamed and made accusations, shooting himself in the foot?? (no, he shot it off) the tape was hand delivered to an attorneys office for evidentiary proof later that afternoon as I am sure that malicious harassment will continue against this family until a criminal comlaint is documented and implemented?! Michael Kuriatnyk, Martin Lindstedt and myself wish to extend our appreciation for the valuable lessons learned. The Kuriatnyk Family are in the process of purchasing a Video Camera and Wireless Microphone, to complete their arsenal of Heavy Weaponry of mass destruction to the Government Sponsored Terrorists. The Kuriatnyks' already have 35 millimeter hardware which is the favorite weaponry of Jeff Randal against the infamous Sons of Satan i.e. BATF, FBI, and other agencies of pernicious characteristics.

Special appreciation and recognition is extended to a "Unique Legal Eagle" who flew in from California to share her involvement against the malicious prosecution of two Militia Men that are presently incarcerated in Georgia. The dedication to purpose and the tenacity used to entrap the obstinate S.O.S Troopers as and will also go down in the "Annals of Georgia History" as the "Legal Icing of the Cake"!! I can imagine the mental discomfort for the Defenders of Terrorism both on the Bench and the Prosecution side, when Ms. Nancy Lord entered the courtroom?! I would have rather have Her as defense, than a whole Battalion of Turbaned Turks with scriminars hung at side.

The culmination of "The Good O Boys Roundup" would not have been complete without the resplendent articulation of one of "The Greatest Americans" who has walked the walk and can damn sure talk the talk. Loyalty, Unity, and Edification epitomizes J.J. Johnson and when he was finished with his message it was time to gather ones wits and look into the

mirror, looking deeply into the soul, because the time of commitment, "totally" is not in the too far distant future. The escalation of major attacks against the "Patriots" will become more and more apparent unless with the Counter Tactics developed by the Gadsden Minutemen can turn or defuse as many situations as is financially and physically possible to do??!!

A special thanks to all who gave of themselves, (their stories) the fellowship of the campground will be a lasting influence in this O Hillbilly's thoughts and it is my prayer that this Republic continues to survive and be enhanced with the dedication, leadership, and influence of the Gadsden Minute Men and Their Families. God Bless their Units and God Bless America one more time.

There is one special person whose actions and worn out sole leather, making sure that everyone had a comfortable area. "Mike Perrin" it will never cease to amaze me the physical endurance of this Militiaman and His dedication to service. Only one complaint though?? "The smell of frying bacon, eggs and taters" permeating the whole camp ground was the only bugle needed to rise and shine. Thanks Mike, your fellowship and Patriotic endeavor was exquisitely welcomed by everyone.

All Federal, State, and Local Agencies were invited but to my knowledge none attended. The area was well endowed with News Sources, and in amazement didn't make a nuisance of themselves. Whether the generation of good press will be visible in the future, I am sure this event will be closely monitored. The News Reporters including the Editor of Media By-Pass, Lawrence Meyers was at the gathering. I am sure that his articles will meet the muster of this event. A Times Staff Writer, Donna Maltbie also wrote an article that appeared in the Gadsden Times, Sunday, May 19th. Her article was very well written and unbiased and was example of excellent Journalistic ability that is not read very often and am extending appreciation from the Missouri Detachment to the Scribner and Editor of the Gadsden Times, and when time permits will produce it in its entirety from the key-board of this address.

Just Thinking About It

I'm getting pretty tired of hearing people call this a Democracy here in this United States. This is not a Democracy and this has never been a Democracy. This is a Republic! THIS IS A REPUBLIC!!! This is a Constitutional Republic!

A Democracy is described in one dictionary as being mob rule. A very accurate description I believe. In a Democracy the people would be continually voting and changing, voting and changing. I don't believe that there has ever been a complete Democracy before and I can't imagine one in the future. If one comes along I hope that I don't have to live in it. I have had people tell me that there isn't any difference between a Republic and a Democracy. This is wrong because there is a bit of difference between the two. I realize that we are Democratic in as much as we do vote to some extent yet this does not make us a Democracy.

We are a Republic and we have been a very successful Republic for over two hundred years. I could add that we are a Constitutional Republic, Yet to be a Republic you have to have a Constitution. You can't be a Republic without a constitution. You can be a Democracy without a Constitution or if you had one you could vote it out of existence. To be a Republic you must have a Constitution. A Republic is a DICTATORSHIP. Boy! There's that nasty word that no body wants to use or hear. I hope that no one does anything drastic to hear that we are living in a Dictatorship, Yet it is true. A REPUBLIC is Dictated to by the CONSTITUTION that it is governed by and not by man. Man governs and moves the country forward within the guidelines set forth by the Constitution. If they step outside the boundaries of the Constitution in the making of laws then they are guilty of treason against the people and the country that they are working for. All our politicians swear an oath to uphold, obey, and defend the Constitution. It is high time that they started living up to their obligations and doing their jobs according to the supreme law of the land which, is the Constitution Of The United States.

When the people loose control of their government then the government will take control of the people. If the government is in control of the people then the people are slaves!!!!

GOD BLESS AMERICA

Dear Sir:

According to a report on the "Net" you stuck you finger in a rally attendee's face and said "You guys are starting to piss me off" and the comment is on tape.

Well, Mr. Agent in Charge I guess you have realized by now no one, with the possible exception of your family, gives a hoot if you are "pissed" off. I imagine you felt secure with your hundreds of law enforcement and all their guns protecting you from our cameras and recorders.

I have prayed for you and will continue to pray for you and if you are a Christian please say one for me. I'm sorry I could not have been there to meet you but my arthritis, MD, and diabetes keeps me home.

Current questions about FBI behavior at Ruby Ridge and, subsequently, Waco seem to concern the "degenerated" state of the FBI which could produce such aberrations.

I would maintain that the FBI has always been fertile ground for a politically skilled and connected "rogue" to ply his career-enhancing skills. The outward appearance is always of scrupulous, "just the facts, and by the book," highly skilled and elite protectors of the people. I have no doubt that a great number of FBI personnel, even by today's corrupted standards, fit exactly that description. Supervisory Special Agent Dr. Frederick Whitehurst comes to mind.

But it is now known that the FBI of Hoover's day targeted individuals for legal harassment, and performed "black bag" and entrapment and provocative operations against political dissidents and opponents. But, finally, to the point. They also demonstrated a willingness to shoot first and ask questions later.

On January 22, 1962, Katie Ruth Blanton Patterson, in a car with her cousin and her cousin's husband, died from six gunshot wounds, from an (alleged) semiautomatic US M-1 Carbine which was fired by one H.W. "Bill" Major, an FBI special agent. No one in the car was wanted for any offense whatsoever, though Katie Ruth's cousin's husband was on parole at the time. Katie Ruth's cousin was also wounded in the shooting spree. Twenty-three rounds were fired. Excuse me, I must correct that. Twenty-three rounds penetrated the automobile in which Katie Ruth rode.

The excuse given for the shooting was that a wanted man, an escaped convict, the husband of the foolish Katie Ruth, had once been seen occupying the car. Agent Major, standing and shooting from off the road, feared for his life because the loud muffler on the car made it sound as though shots were being fired from the speeding vehicle which he thought was also trying to run him down. Off the road.

Newspaper accounts speak of the car being "riddled with 23 bullets..." A photo accompanying the article shows about half of them in the right front door and window post. *The Gadsden Times* states that Agent Major was "staked out" at the home of Katie Ruth's father, where she lived. Agent Major was observing the home, and never saw Katie Ruth's husband, since he was not there.

Quoting the Etowah County, Alabama Circuit Solicitor (prosecutor), *The Gadsden Times* states "the driver...saying he did not know who the agent was, and that he was afraid to stop."

""As the car reached the FBI agent, he opened fire," Wright explained, "and continued to fire as the car raced past.""

"After the car had gotten past Major, it came to a halt on the side of the

road."

"Although the car was stopped, Major continued to fire," Wright (prosecutor) quoted Jones (the driver) as saying. "When the firing did not stop, Jones drove on down the road about three-quarters of a mile to a store where he called for help." Does this sound like the 911 call from Mt. Carmel, Waco, Texas?

If this car were speeding and Agent Major was firing a semiautomatic M-1 carbine, how is it that so many rounds were in such a tight group in the front door? Did he have a good, stable firing position off the road, as I was told by my elders, rather than diving desperately for cover, as was portrayed by Agent Major?

I saw the vehicle a 13-year old. I remember holes in the trunk as well. I was very familiar with the rate of fire available from a semiautomatic weapon. I recall having no trouble believing that the weapon involved, particularly since only one man was shooting, was a "machine gun," as I was told by my elders at the time. Was the weapon an M-2, fully automatic?

Was the car perhaps not speeding towards, then away from Agent Major quite as rapidly as he would portray? Agent Major was a six year veteran. Did he have six years of inbred arrogance, and hunger for the glory and promotion that would be his if he "caught the bad guy trying to get away," managing to kill the guy with the excuse of being assaulted with a car?

Wright, the County Solicitor (prosecutor) and Colvard, Sheriff of Etowah County, described Major as a "fine officer and fine gentleman."

"We deeply regret the incident... and know he made a tragic mistake. But a law enforcement officer particularly can't afford to make mistakes."

"The fact that he is an officer of the law makes it doubly important that he be certain innocent people will not be injured or killed when he uses firearms."

"Knowing Agent Major, we feel certain he is deeply sorry for the tragedy. But we feel he must be charged and the case presented to the grand jury for action February 12."

Agent Major was jailed on a warrant for murder in the first degree, signed by the Katie Ruth's father. He was released on a \$3,000 bond, into the custody of a U.S. Attorney. Solicitor Wright, who had earlier called for his being charged in the matter, somehow failed to get an indictment from his grand jury, which returned a "no true bill." A civil claim was made for \$150,000...

I visited your grave, Katie Ruth, with the hearings concerning Ruby Ridge, the murder of another young woman fresh in my mind, I was blinded by tears, unusual in this hard-boiled soul. Rest in peace, Katie Ruth. You are not forgotten; perhaps, with the help of late-waking Americans, your death will not be in vain.

Why American
Voters
Should...

DUMP DOLE

*Thought this might be of
interest to you...*

*it was unanimously adopted at a rally at the Kansas
State Capitol.*

Whereas, our nation's Republican Governors, via the Williamsburg Resolve dated November 1994, stated: 1) *"the challenge to the liberties of the people...comes from our own Federal government...that has defied and that now ignores, virtually every constitutional limit fashioned by the framers to confine its reach and thus...guard the freedoms of the people;"* 2) *"Federal action has exceeded the clear bounds of...the Constitution, and thus violated the rights guaranteed to the people;"* 3) *"Our freedoms are no longer safe when they exist only at the sufferance of Federal legislators, Federal courts, and Federal Bureaucrats;"* and 4) *"The people of the States seek to regain control of their own destiny, and they have entrusted State leaders with the responsibility...; and*

Whereas, the Governors pledged to restore *"to the States and the people the*

prerogatives and freedoms guaranteed to them under the Constitution," and

Whereas, the U.S. has used a mathematically flawed monetary policy since 1914 by which, according to the Dept. of Treasury, *"the actual creation of money always involves the extension of credit by private commercial banks" and "money for paying interest on borrowed money comes from the same source as other money comes from" meaning there's no way for Americans to pay their debts, and that eventually, the privately owned Federal Reserve Banking System will hold title to all real wealth of its choice, a mortgage on the remainder, and a claim on all future production, a fact agreed to by Kansas Governor Joan Finney and Senate President Burke, and made known to the entire Kansas Congressional delegation, and*

Whereas, on March 9, 1933, Congress passed the Emergency Banking Act. Section 2 of which amended Section 95 (b) of the Trading with the Enemy Act of 1917 to read:

"During time of war or during any other period of national emergency declared by the President, (author's emphasis) the President may, through any agency that he may designate, or otherwise, investigate, regulate, or prohibit, under such rules and regulations as he may prescribe, by means of licenses or otherwise, any transactions in foreign exchange, transfers of credit between, or

payments by, banking institutions as defined by the President, and export, hoarding, melting or earmarkings of gold or silver coin or bullion or currency, by any person within the United States, or anyplace subject to the jurisdiction thereof," and

Whereas, this amended version officially made Americans the enemy of their Federal government, and in essence suspended the Constitution and transformed the U.S. into a Constitutional dictatorship, and

Whereas, U.S. Senate Report # 93-549 says: *"This vast range of powers, taken together, confer enough authority to rule the country without reference to normal constitutional processes" and*

Whereas, Public Law 313 dated 4-14-52 says that the termination of *"this existing state of war...would render certain statutory provisions inoperative" and that "some of these statutory provisions are needed to insure the...capacity of the United States to support the United Nations..., " this being an open admission that U.S. participation in the UN is unconstitutional, and*

Whereas, the Governors pledge cannot be realized unless and until the nation's monetary policy is corrected to bring it into compliance with the Constitution's intent, the Emergency Powers of the President are terminated, and U.S. sovereignty is reinstated, and

Whereas, the entire Kansas congressional delegation has been apprised of the need to make these corrections but have chosen to ignore the need, and

Whereas, U.S. Senator Robert Dole (R-KS) has not only ignored the needed corrections but also denied the request of a majority of his constituents and further subverted the principles of our Declaration of Independence and Constitution by supporting passage of NAFTA, GATT, the Brady Bill and in other ways, *BE IT RESOLVED* that we in attendance at the Kansas Constitutionists rally:

1. Extend our congratulations to the Republican Governors for recognizing that the Federal government "*has exceeded the clear bounds...of the Constitution*" and for committing themselves to rectifying this condition and hereby promise to provide the Governors our full support so long as they display honesty and integrity in pursuit of their pledge.

2. Authorize the sponsors of this rally to send a letter to each State Governor to find if she or he agrees with the need to correct our mathematically unsound monetary policy and terminate the Emergency Powers so that the Constitution can again reign as the Supreme Law of our Land and the Governors pledge can be met.

3. FIND THAT SENATOR DOLE,

HAVING BEEN IN A POSITION TO STOP THE AFOREMENTIONED UNCONSTITUTIONAL ACTS AND TO SIGNIFICANTLY INFLUENCE CORRECTION OF THE ISSUES PRESENTED HEREIN BUT HAVING FAILED TO DO SO IS EITHER: A) POORLY INFORMED, B) UNDERSTANDING OF THE ISSUES AND THE REPERCUSSIONS OF HIS ACTIONS OR LACK THEREOF BUT DOESN'T HAVE THE COURAGE TO HONOR HIS OATH OF OFFICE OR, C) INTENTIONALLY SUBVERTED THE PRINCIPLES OF OUR DECLARATION OF INDEPENDENCE AND CONSTITUTION AND KNOWINGLY HELPED DESTROY OUR NATION'S FOUNDING PRINCIPLES AND THE FREE AND INDEPENDENT STATUS OF OUR STATES IN ORDER TO SUBJECT AMERICANS TO THE CONTROL OF OTHER NATIONS AND/OR THE UNITED NATIONS AND,

WE THEREFORE FIND SENATOR DOLE UNFIT FOR ANY PUBLIC OFFICE AND ESPECIALLY THE OFFICE OF PRESIDENT OF THE UNITED STATES.

4. Respectfully request that Kansas Attorney General Carla Stoval file the lawsuit prepared by Judge (rtd) J. J. Boesel challenging the constitutionality of the United Nations Charter on five counts directly with the U.S. Supreme

Court under the authority provided her by Art. III, Sec. 2 of the Constitution of the United States and hereby appoint Mr. Steve Morgan as our representative to formally contact AG Stoval on this matter.

END OF RESOLUTION

Fellow Voters - Many of you are aware of our unpayable public and private debts and of how every President in the last 60 years has used decrees, Proclamations and Executive Orders to rule over us without reference to the Constitution. It is urgent and necessary that this be stopped!

Change will only come when enough voters understand these issues and insist that our Presidential and all political candidates, address our nation's mathematically unsound monetary policy, and the use of "EMERGENCY POWERS" to violate our rights as noted by our Republican governors.

Our Constitution is our Lifeline back to a sane and just system of government. It is the only lawful "contract with America." Please study it, and be sure that those you vote for understand and will honor it!

Restoring lawful government border to border makes more sense than a NEW WORLD ORDER.

AN OPEN LETTER TO GOD

with reverence from a heavy heart

Where were You yesterday? Were You with the Israelis who fired that deadly blitz into the U.N. camp? Did You go there and see the carnage? Did You see the baby with her head severed from her tiny body? Is your heart filled with tears as are the eyes and hearts of human kind at the sight of this brutality? Is this some cruel, sick cosmic joke? Are we to understand that You and Your followers "love the little children of the world" except Palestinian and Lebanese children? Are these butchers really Your "chosen", best, friends? Do You agree with Madeleine Kerbel Albright that the transfer of culpability to children, in order to kill them, is justifiable? Why do You allow Clinton, Christopher and their murdering handlers to continue to make us all a party to this inhumane slaughter by their condoning, encouraging, and supporting Israel with our money and weapons. Last night one of Your Ministers told me that these unconscionable killings are "Your perfect will" and that it must be "so Jesus will come back soon." Are You the author of this insanity? Why do Your people hide their eyes and harden their hearts - otherwise passionate, intelligent people listening to and believing the apologist in the press and government who rationalize and excuse these horrid crimes?

Were You at Deir Yassin when these same uncivilized beasts packed the bodies of women and babies into wells after their massacre? Did You feel anything when they forced naked pregnant women onto flat-bed trucks to be paraded through Jerusalem, stoned and spat upon? Were You anywhere near Sabra and Shatila when Your 'chosen one' Ariel Sharon, flooded these filthy refugee camps with bright lights and sent his and his men and the 'Christian (?) Phalangist' militia, puppets in with only orders to not rape girls under 12 years old? Did You watch as these storm-troops held young boys on the ground cutting away their testicles and then slitting their young throats? Why are so few of Your worshipers aware of these heinous war crimes in hundreds of nameless villages? Did You 'go before' these maniacal, fiendish bastards as they forced POWs to crawl and bark like dogs while shouting, "long live Begin, long live Sharon?" Are You behind this blatant demonstration of 'selective humanitarianism' wherein we are instructed to make such a prodigious difference between the terrorist killing of some children and treat the deaths of others with callous disregard? I just observed a period of silence in respect for the lives of those slain in Oklahoma, as it should be, but will there ever be any recognition or even acknowledgement of our dastardly involvement in Israel's terrorism? While near 100 men, women, and little babies lay mangled in this UN camp our duplicitous masters used only one word to describe this unpardonable crime, "regrettable". Will You be with those hypocrits next week at the Holocaust Museum who participate in the iconical worship of fifty year old corpses, while the soil of Your Holy Land is sullied with the fresh blood of children? Why would You send Billy Graham to Oklahoma City and not to Waco or Beirut? Answer me damn-it, answer me!
